ÖKOPROFIT AWARD
Ceremony with mayor of the town, representative of Ministry and participating companies
May /2017

ÖKOPROFIT stands for cooperation between companies, community and experts which are working hand in hand and explore synergy effects for energy savings.

The goal is the sustainable economic and ecological strengthening of companies. Through a system of coordinated measures, companies will be able to reduce costs and increase their eco-efficiency. Key topics are the reduction of water and energy consumption as well as waste reduction and increased material efficiency.

The measures included:

The identification of potential savings through environmental measures

The increase in the environmental awareness of employees

The networking of the participating companies and the city
